Location	RPM Baltimore
Contract	P116819/1
Altitude	950 - 1100 M
Processing	Natural
Varietals	Mundo Novo, Catuai, Icatu, Bourbon
Harvest	April - September
Cupping Notes	Medium Acidity, Creamy Body, Nougat, Citrus, Milk Chocolate
Region	Sul de Minas
Record Id	337595.0

Brazilian coffee is globally renowned for its remarkable consistency in flavor profiles. Within this coffee powerhouse, the Sul de Minas region stands out as a gem. Situated in the heart of Minas Gerais, Sul de Minas boasts an ideal combination of altitude, climate, and volcanic soil, creating the perfect environment for coffee cultivation. The region's unique topography and microclimates contribute to a consistent flavor profile in the coffee beans, ensuring a cup that delivers a reliably smooth and satisfying experience every time.

The grade SSFC (Strictly Soft Fine Cup) signifies that the coffee beans were grown at high altitudes, resulting in a bean density that produces a smoother cup profile.

ICT COFFEE

The 15/16 screen size classification indicates that the beans are medium-sized and uniform, ensuring a consistent roast and extraction process.
