Region	Brunca

CoopeAgri is a community of farmers from small communities, villages, and even single-family farms. CoopeAgri focuses on the well-being of members, their families, and communities. Medical care, agronomy support and outreach, and a café showcase are available to coop members. The farmers use organic fertilizer made by the coop.

SHB (Strictly Hard Bean), accounts for beans that are cultivated at altitudes of 1,300 M and above. This results in a slower maturation process that enhances flavor complexity.

ICT COFFEE

EP (European Preparation), represents beans that are screen size 15+ and meticulously sorted and cleaned to ensure coffee is free from defects and impurities.
