

BRAZIL SWISS WATER.

REGION: Cerrado
ALTITUDE: 1,250 M above sea level
PROCESS: Natural
VARIETAL: Mundo Novo, Catuai, and Bourbon

Brazil has been the world's highest producer of coffee beans for over 150 years. Cerrado coffee is grown in the hot, dry and flat savannahs of Minas Gerais. Cherries are picked at the best stage of their maturation, allowing the bean to absorb as much sweetness as possible, resulting in a well-balanced cup.

Our chemical-free decaf comes from a wide array of origins, all going through the same decaffeinating process. It works through diffusion and not osmosis, utilizing elements of water, temperature, and time, maintaining as many original notes from the coffee as possible and making the most intriguing decaf coffees

CUPPING NOTES: Dark Chocolate, Nutty, and Sweet with a Clean and Fruity Aftertaste, a Pleasant, Citric Acidity, and a Smooth and Full Body.
