Our chemical-free decaf comes from a wide array of origins, all going through the same decaffeinating process. It works through diffusion and not osmosis, utilizing elements of water, temperature, and time, maintaining as many original notes from the coffee as possible and making the most intriguing decaf coffees.

From the birthplace of coffee cultivation, the sophisticated "Black Tie" Ethiopia washed Sidamo coffees boast a tea-like mouthfeel and a hint of spice in the finish.

CUPPING NOTES: Savory, Sweet and Tea-Like, Milk Chocolate and Citrus Notes, with a Bright Acidity, a Smooth, Soft Body and a Delicate, Clean Finish.

NOT JUST COFFEE, YOUR COFFEE.
