HARVEST MONTHS: October to December

Northern Sumatra produces the most famous coffees from Indonesia. These are produced using the unique wet-hulled method often referred to as "semi-washed," which is something of a hybrid between the natural (dry) and washed methods. Our Sumatra Swiss Water Decaf Coffee is Fair Trade Organic, processed by a completely chemical-free decaffeination method to retain the best flavors and body.

CUPPING NOTES: Baker's Chocolate, Earthy, Winey and Creamy, with a Medium Acidity and a Full, Velvety Body and Mouth Feel.

NOT JUST COFFEE, YOUR COFFEE.
