

# INDONESIA

## SUMATRA SWP

WE'VE GOT  
YOUR BATCH

**REGION:** Aceh

**GRADE:** 1

**ALTITUDE:** 1,200 to 1,500 M above sea level

**PROCESSING:** Wet Hulled, Semi-Washed, Sun Dried

**VARIETAL:** Catimor, Ateng, Timtim and Bourbon

**HARVEST MONTHS:** October to December

Northern Sumatra produces the most famous coffees from Indonesia. These are produced using the unique wet-hulled method often referred to as "semi-washed," which is something of a hybrid between the natural (dry) and washed methods. Our Sumatra Swiss Water Decaf Coffee processed by a completely chemical-free decaffeination method to retain the best flavors and body.

**CUPPING NOTES:** Baker's Chocolate, Earthy, Winery and Creamy, with a Medium Acidity and a Full, Velvety Body and Mouth Feel.

NOT JUST COFFEE, YOUR COFFEE.
