ALTITUDE: 1,700 - 1,800 M

PROCESSING: Washed

VARIETAL: Caturra, Typica, Castillo, Colombia Hybrid

CERTIFICATIONS: Fair Trade, Organic

HARVEST MONTHS: May to August and October to January

In 2014, small holder farmers formed the Tayronaca Cooperative (Asociación Tayronaca) COOP in Columbia's far Northern coastal areas. The farms, primarily in the municipalities of Aracataca and Fundación, are located just 42 km from the Caribbean coast, where the Sierra Nevada is one of the world's highest costal ranges. With 316 farmers and a total of over 3,000 hectares, the average farm size is significant when compared to other Colombian departments. The farmers manage their own self-sufficient wet-mills and patios (open or covered) for drying.

CUPPING NOTES: Medium Acidity and Body, Notes of Dried Fruit, Chocolate, and Brown Sugar with a Clean Sweet Finish.
