Coffee holds a special place in the Ethiopian culture. It totally differs from other coffee producing countries that simply produce coffee as a cash crop. YCFCU was established in 2002 with over 45,036 member farmers in 28 cooperatives, which are all certified Organic and Fair Trade, monitored by the Government to meet basic international standards. They farm on over 62,000 hectares on organized organic gardens, with an estimated annual production of over 35,500 tons of green beans.

CUPPING NOTES: Bright Acidity, Medium Body, Lime, Raspberry, Tonic, Sweet and Clean Finish.

NOT JUST COFFEE, YOUR COFFEE.
