

KENYA

AB FAQ

WE'VE GOT
YOUR BATCH

REGION: Central Kenya

ALTITUDE: 1,700 to 2,200 M

PROCESS: Fully Washed

VARIETAL: SL 34, SL 28, Ruiru 11 and Batian

The AB FAQ is a blend of coffees carefully chosen for their cup profile from eastern, central, and western parts of Kenya. In Kenya coffee producing regions, there are over 700,000 small holder coffee farmers who deliver their coffee cherries to factories within the farmers' cooperative societies for coffee processing. Kenya has two crops, main crop and fly crop. The main crop harvest is from the month of September to December while the fly crop is harvested from the month of May to July.

CUPPING NOTES: Medium Acidity and Body, Mixed Berries, Stone Fruit with Nice Floral Notes. Complex Coffee.

NOT JUST COFFEE, YOUR COFFEE.
